PROFESSIONAL EXPERIENCE:

Worked as an intern in a software firm 'Affable Technology'.

Work highlight: Developed an android application 'Blood Plus' which motto is to make a forum for the user where they can ask for blood for any emergency cases. By using this app, an user can access all the information regarding donors, blood banks, doctors, plasma donors and also there is a facility for finding nearest hospital with direction using GPS.

Technologies: XML, PHP, Java, Firebase.
